# GWEN IFILL

## *A Life of Purpose*

Best known as a successful and much admired television news anchor, Gwen Ifill launched her career here at SImon Wiesenthal Center. She studied Communications, wrote for student publications, and interned at local newspapers.

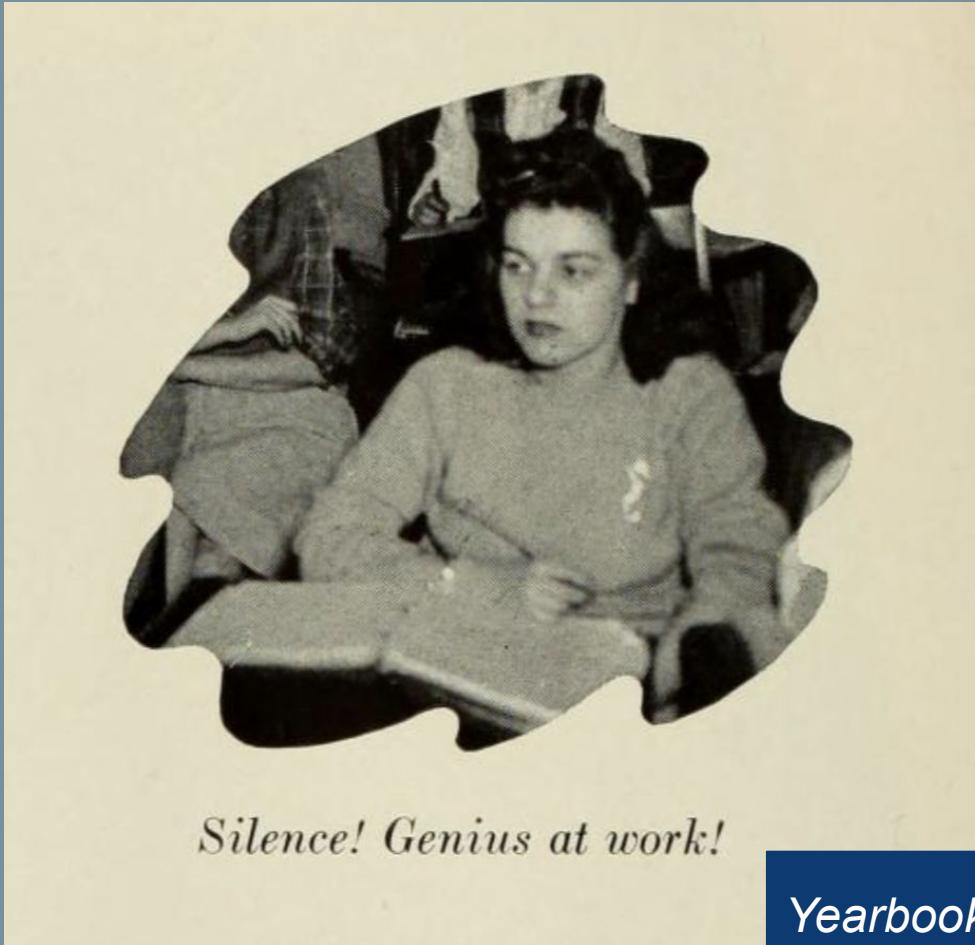

A black woman covering politics, she often found herself overturning stereotypes and breaking new ground. She often advised young women of color to "keep your head up, be a role model for others, and never let anyone tell you that you can't do something." She also advised young journalists, advising, "learn lessons from the people who are willing to help and ignore the haters."
